MR. ROBERTS'S EXPOSE.

From the U.S. Gazette

To the Public. It has pleased the President of the United States to make a change in the office of Collector of the port of Philadelphia, and it is due to myself that you should be informed of the facts connected with this proceeding. I pray to be allowed to disclaim any feeling of personal unkindness towards the President, while I own a deep sense of the injury which he has been induced to inflict on me by causelessly removing me from a post in which he voluntarily placed me.

On the 14th of April, 1841, I received an autograph letter from President Tyler, announcing my appointment as Collector of the Port of Philadelphia, expressed in the strongest terms of confidence and kindness. Though I had been, in the course of my public life, often on terms of intimate association with incumbents of the Executive office, both State and Federal, I had never intimated a wish for favors from them, nor did I ever receive any assurance of a willingness to deme service. This appointment was unsolicited and unexpected. It reached me in a retirement of nearly fifteen years' duration, and was accompanied by circumstances which made it more orable to accept than to decline it.

I came into a community where I stranger, and which, as the President had informed me, was distursed by a very active competition for the office to which I was appointed. I brought no friend with me, and called none to me. I had no private ends to serve, and in good faith set about healing, as far as possible, the irritation that had before existed. Before receiving my commission, I had written to Mr. Tyler, recommending the appointment of Mr. Henry Morris as Collector. To this letter I received the following answer, and at the same time the intelligence of my appointment:

'My Dear Sir: Your letter is before me, and has been read by me with all the respect which I sincerely feel for your character and past services. I recognise in you may elder in that political school to the advancement of the principles of which we have alike devoted anxious days and nights. The regretted death of General Harrison has cast nights. The regretted death of General Harrison has cast a deep gloom over the Country, and has been more painfully feit by myself than any other, because not only of the strong personal ties which existed between us, but because of the high and delicate responsibilities which it has devolved upon me. How I shall acquit myself in the discharge of the duties of my high office, depends, under Providence, to be yet seen. I rejoice that among the first acts of my Presidential life, is that of conferring office on a true and sound patriot, such as you are. The mail which bears you this, will also convey to you a commission as Collector of the Port of Philadelphia. Your disinterestedness in recommending another, who, I should have been very happy to have obliged, has wrought no injury to yourself. I by to have obliged, has wrought no injury to yourself. I knew you would not ask office, but acted on the ground that if you had merits, they would be known to the appointing power. Besides, my dear sir, the warm personal contest which this office has created in Philadelphia, seemed to test which this office has created in Thinaderpaia, seemed to me to render it proper to have neither a triumph or a de-feat. I have, therefore, obeyed not only the suggestions of my feelings, but sound policy, a making the appointment. You will, I doubt not, by a somewhat equal distribution of your favors, reconcile the friends of all the parties. Mr. Badger and Mr. Tyson have been the warmest contestants. They may have made promises in anticipation of success to particular persons, whom you may qu'et by carry mg them out. I merely make you suggestions as from one friend to another, to be adopted by you as your judgement may dictate. I have one wish, I confess, and it is that Governor Shulze should have the place of Principal Weigher—an office, the duties of which are light, and the income of some

Be pleased to accept, my dear sir, assurances of my great respect, confidence and friendship. JOHN TYLER. HOD. JONATHAN ROBERTS.' It was a conceded fact, that during the political canvass of 1840, from the head of the Custom House, through a large portion of the persons engaged in the performance of its duties, there had been the most ardent political action. There

had been an avowed assessment on the compensation of the officers for election purposes. There were cases of firm and honorable non-compliance, as well as of compliance, by worthy and estimable men, under what seemed to them to be an irresistible necessity. With regard to those who had thus abused their trusts, I had no hesitation. The dictate of propriety was at once to remove them. The inoffensive were, so far as my knowledge extends, without exception, retained; and my appointments were governed throughout by the expressed wishes of the Presi lent, my anxiety being Nie to see that no unworthy individuals were thrust upon me. So far as I could rely on the testimeny of others, I had reason to think that those I appointed were men of character, of Whig principles, and (as directed by the President,) the friends of those whom, in this respect, he was desirous to

I took office on the 21st April, 1841, and on the 27th, the list of my appointments was forwarded to the Secretary of the Treasury, from whom, on the 3th of May, I received the following letter of approval:

WASHINGTON CITY, May 8, 1841. "My Dear Sir: I have just received your letter of yesterday. Do not, I pray you, suppose that the President or myself, for a moment, doubt the correctness of your course, under the trying and difficult circumstances in which you have been placed. Far from it. You may have made mistake: this we think probable in some cases among the many. We know that we have. But you have our full and entire confidence in your sound discretion and unwavering pa-triotism, and it is not in the least shaken. Be assured of this

At this point of time I had a right to believe that all uneasiness on the subject of the appointments was tranquillized, and my conduct being thus approved directly by the Secretary of the Treasury, whose super vision is alone contemplated by law, and also by the President, whose wishes I was anxious to gratify, I dismissed the matter from my mind, and applied myself to the faithful and sedulous discharge of my duties. Unfortunately for the Public Service and for the good fame of the President, there is too much reason to believe that an individual entitled in no respect to the confidence of the Executive or his fellow citizens, who was at one time Surveyor of the Port, and more recently Commissary General of Purchases, became discontented at the share of influence which he had with me in the distribution of office, and was active in fomenting, by some means unknown to me, unkind feelings in the bosoms of the President and his family. Though reluctant to credit the possibility of such an influence with an independent and intelligent Chief Magistrate, I am unable to trace to any other source the mischievous and unfounded rumors which were very soon circulated to my prejudice at Washington. To such an extent was this carried, that on the 5th of May, the President wrote to me, begging "me to appease his anxiety," and assuring me he desired to hear from me, "only to enable him to stop idle tongues" I answered the letter without delay, and on the 10th of May I received the following answer:

WASHINGTON, May 10, 1841. 'My Dear Sir: I take a moment to say to you that my confidence is you is wholly unabated, and that I have no doubt but that all that you have done will be well. My last letter was designed to place me in possession of facts which I might use advantageously. I shall give ear to nothing to your injury. With truest regard, yours, &c JOHN TYLER.

On the 15th of May, I paid my respects in per-

the public business.

PHILADELPHIA, April 28, 1842. *Dear Sir: At the time you addressed to me your very kind letter of the 12th December, 1841, it was apparent your feelings had been disturbed by representations which were erroneous if not disingenuous. I then replied to you with all the candor the obligations you had conferred on me, and the kindness of your letter enjoined. I have been aware, that through the whole time that has since elapsed, there has been an unremitted pursuit of measures by some men to effect purposes of their own by means far from justifia-ble. At this moment it is announced through the public pa-pers from Washington to New-York that changes are to be looked for in this city. If it be so, not knowing where they are to fall, I only ask for an opportunity to lay before you the account of my stewardship in the place you have been pleased to assign me. It is not my purpose to enter upon this explanation at this time, but to express my willingness. and wish to have an interview with you personally. Hon. WALTER FORWARD, Secretary of the Treasury, On the same day I wrote to the Secretary of the Treasury: "Collector's Office, Philadelphia, April 80, 1842.

J. ROBERTS. It is right that I should here observe that by law all subordinate officers of the Customs are to be nominated by the Collector, and to be approved by the Secretary of the Treasury. The President has no right to interfere with them, nor has the Secretary any thing to do with the original appointment. Among those whom Mr. Tyler directed me to remove, was one attached to the Appraiser's Department, over which the Collector has no authority

I reached Washington on the evening of the 3d of May, and immediately waited on Mr. Secretary Forward, informed him of the purpose of my visit, and of the circumstances of the case. He disclaimed any participation or privity in making out the lists of those to be appointed and removed, and said that he thought that if I communicated to the President what I had to him, he would be satisfied

My complaint at first seemed light and hardly worth while to call a physician; but I soon began to grow worse, and a physician was called, who prescribed some pills containing a powerful preparation of mercury, to be followed by sarsaparilla root and lignom vitar made into a tea, which I continued using for several months without intermission. Soon after taking the mercury I began to feel its poisonous inflaence. My whole glandular system became affected, also the bones, joints and muscles; tumps formed upon the skin nearly as big as an egg accompaned with intense burning beat, which keptswelling until they broke, and discharged matter and blood. These continued to increase until they covered my whole body. But this was only the beginning of my afflictosias: now commenced those forturing pairs overed my whole body. At times it scemed as if I was stretched upon a rack and all my limbs were being I m from each other; at others as if starp kaives were piercing me at every point. The muscles of my legs seemed field in knots and were as hard as a hone. My distress was now so great that my groans at night disturbed the whole house and also some of the families in the adjacent buildings. I had not slept a night since the early part of December last; the only seen I obtained was a few hours during the middle of not slept a night since the early part of December last: the only steep I obtained was a few hours during the middle of the day pillowed up in a chair, and the eruption had also fearfully increased. My face was completely covered with an extending sore. Thad now shrunk to a mere skeletonthe skin and flesh were so diseased around my thighs that the bones nearly protruded, and the physicians pronouced my case beyond the reach of medicise. Oh how I wished that I might die. From my long and protracted illness we had become much reduced in circumstances. A short time since while looking in the papers, I chanced to see your Sarsaparilla advertised, accompanied with a certificate from Since while looking in the papers, I chanced to see your Sarsaparilla advertised, accompanied with a certificate from Mr. Burdock, of a most extraordinary cure made by its use. I had not slept like this before for months. By the time I had used one bottle, the pain had nearly left, the eruption was also much better. I now felt a strange hope gathering in my breast that I should live! perhaps be cared. No; this could not be. I dared not believe it. I sent and got another bottle, continuing to improve rapidly, and still another, and I—I a few days since a miserable, suffering, dying man, was almost well. Two weeks from the day I took the first dose I was out, and walked nearly three miles without even the assistance of a cane.
